

1. Consolidate the information related to Augur setup
 - a. Remove outdated information
 - b. Place updated information into one place at start of documentation
2. Make copying commands easier
 - a. Remove terminal prompt from commands
 - b. Add copy buttons to text boxes

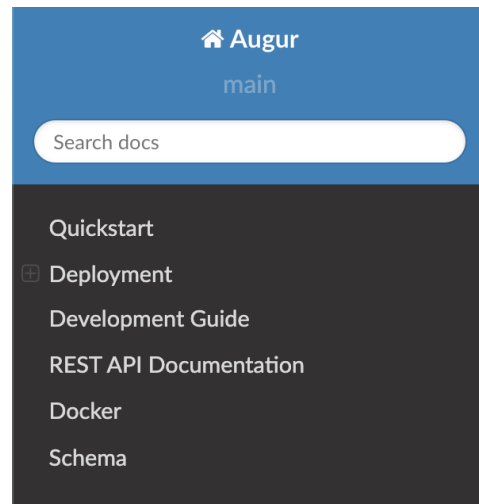

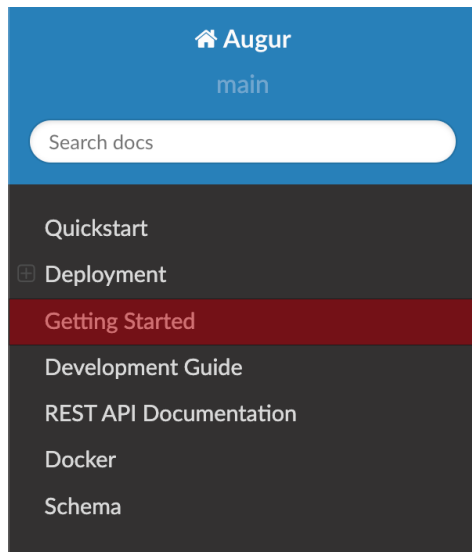

```
postgres=# CREATE DATABASE augur;  
postgres=# CREATE USER augur WITH ENCRYPTED PASSWORD 'password';  
postgres=# GRANT ALL PRIVILEGES ON DATABASE augur TO augur;
```

```
CREATE DATABASE augur;  
CREATE USER augur WITH ENCRYPTED PASSWORD 'password';  
GRANT ALL PRIVILEGES ON DATABASE augur TO augur;
```

3. Reorganization of table of contents
 - a. Remove old setup tabs

Getting Started and Quickstart will be consolidated into one location to avoid confusion

4. Add documentation about testing documentation changes
 - a. Skipping configuration
 - b. make doc-view
