

Tristen:

I created the branch tigers-getting-started. Then I made a small update to "docs/source/getting-started/toc.rst" and another small update to "docs/source/quick-start.rst". I believe it should be fine for us to move quickstart under the getting started tab now.

Work done in tigers-getting-started branch

Henry:

I installed the sphinx copy button extension for rst and cleaned up text boxes in the 'quickstart' tab

Work done in tigers-copying branch

Tom:

I updated Titles for Docker content Headers and moved items in the TOC to make more sense and be more user friendly. I also removed Quick Start to prep for consolidation

Work done in tigers-setup branch

Greyson:

I made a document that explains how to test our team's changes, and made an addition to the documentation editing instructions about how to test when you're hosting Augur with an EC2 instance.
